

MEDI 10 UV-C AIR PURIFIER

WITH UV-C VIRUS STERILISER

AIR PURIFIER FOR OFFICES, HOSPITALS & PUBLIC SPACES

ParcMed Medi Air Purifiers are well proven high performance air cleaners that use advanced HEPA filtration to remove 99.995% of airborne dust. The new MEDI range incorporates proven Patent Pending Steribreeze® UV-C Sterilisation Technology to kill or inactivate bacteria by disrupting their DNA to help prevent the spread of infectious diseases and viruses like COVID-19. These units are entirely safe for use in occupied areas as all UV-C rays are completely concealed.

The Medi range has been developed for public spaces such as Hospitals, Care Homes, Pharmacies, Schools, Colleges, Clinics, Laboratories, Offices, or any indoor area where there could be nasty airborne micro-organisms such as bacteria, viruses, parasites, fungi, dust mites & spores, and render them unable to reproduce.

These powerful air cleaners are designed to run 24 / 7 to purify the air and create a healthy living environment, but they do not displace the need for essential sanitising and disinfecting of surfaces.

G3 / G4 Filter

The G4 filter purifies the air up to 90%. All dust particles 10 µm or larger are removed here.

HEPA13 Filter

The HEPA13 filter removes up to 99.995% of microparticles larger than 0.01 µm.

Carbon Filter

The carbon filter remove pollutants, VOCs and unpleasant odors from the air. These are gaseous substances that mechanical filters. G4 and H13 HEPA filters cannot remove.

UV-C Sterilizer

Powerful 100% concealed ozone-free UV-C lamps deliver killer rays to destroy viruses & bacteria by disrupting their DNA and help prevent the spread of virus and infectious diseases such as COVID-19, but does not replace the need to take other precautions.

Advantages of the MEDI 10:

- Purifies and disinfects the air up to 99.999%
- Destroys bacteria & virus DNA
- Intelligent filter monitoring
- Remote Control
- Greatly reduces transmission of bacteria and viruses
- Positive effect on your health
- Inhalation allergies can disappear
- 100% Safe use of UV-C as ISO 15858
- Compact high performance mobile units
- Filters are tested to: ISO 16890 -1:2016 / EN1822-1:2019

What can the Medi 10 filter out of the air?

- Bacteria and viruses incl.
- Candida spp.
- CoN Staph
- E. faecalis
- E. faecium
- Fungal 18S
- HSV1
- P. mirabilis
- S. epidermidis
- S. pyogenes
- SARS-CoV-2
- S. aureus

- Dust mites
- Mold spores
- Pollen
- Dust and fine dust
- Smoke and other odours

Advantages of the air circulation system:

- Maximizing system efficiency
- Longer fan life
- Provides healthier air to breathe.
- 24/7 Operation
- Optional ducting kits
- Helps Maintain room temperatures

Proven in world first real live Covid ward trials

SPECIFICATIONS

	MEDI-10
Product Code	114150
Voltage	230V
Total Power	280W
Filter type	G3 G4-Carbon HEPA13 UV-C
Lifetime UV-C	8000h
Speed Control	3 speed
Air Flow Speeds incl. Filters	350 - 1300m ³ /h
Recommended Room Size	70 - 260m ²
Noise Level dB(A)	35 - 60
Weight	43 kg
Dimensions (mm)	490 x 490 x 1050 mm
